## **DETAILED ACTION**

### ***Terminal Disclaimer***

1. The terminal disclaimer filed on 1/23/06 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,621,345 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Allowable Subject Matter***

2. Claims 1, 8-9, 18-19 are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claims 1 and 18, Miyo discloses an AGC for a receiver (figs.10,14), comprising: amplifying a received signal with a gain (figs.9-10); detecting an output power of the amplified signal (by diode 36 of fig.14); generating a control voltage variable with the detected output power (by voltage comparator 101 of fig.14); controlling the gain based on the control voltage to have the output power met a target value (column 7 line 8-43, column 8 lines 27-45); a switch for selecting the voltage applied to the amplifier; a timing signal for controlling the timing of the voltage supplied to the switch (column 7 line 8-43, column 8 lines 27-63, figs. 10, 14).

Iwata discloses a method for controlling a variable gain amplifier in a receiver (abstract), in which an power level of an output of the variable gain amplifier is detected, wherein the power level is used to control voltage to control a gain of the amplifier.

These references fail to teach a packet detector and a timing circuit, wherein the timing circuit connecting at an output of the packet detector, for outputting a timing signal after an elapse of a predetermined time after a start of outputting the packet detection signal from the packet detection circuit.

Regarding claims 8-9, and 19, these claims are allowed as being dependent upon independent claims that have been allowed.

### ***Conclusion***

4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
